

**TŘINECKÉ ŽELEZÁRNY**

## NONRADIOACTIVITY CERTIFICATE

We guarantee that entire external scrap as the raw material is checked from a radioactivity point of view, before the melting process and each heat is tested by devices, which meet valid standards and laws.

This is to declare that all the TŘINECKÉ ŽELEZÁRNY steel products are a subject of radioactivity tests and it is ensured that the products which radioactivity exceeds the value of 100 Bq/kg are not distributed.

Třinec: 26.1.2026
